

List of Tables

Table 1. Summary of water quality limited streams by drainage basin..... 27

Table 2. Areas of ecological importance..... 31

Table 3. Estimated quantity of use by type of use for Lincoln County based on the 2015 water use estimates produced by the US Geological Survey in gallons per day..... 40

Table 4. Estimated self-supplied rural domestic water users and demand by sub-area..... 45

Table 5. Estimated irrigation water users and amount of water use by sub-area..... 47

Table 6. Water Supply and development by sub-Area..... 50

List of Figures

Figure 1. The six-step planning process to complete an integrated water management plan for Oregon's Mid-Coast..... 7

Figure 2. Sub-areas in the Mid-Coast Planning Area used for planning purposes..... 9

Figure 3. Word graphic illustrating the elements of a successful planning process based on sound guidance principles..... 10

Figure 4. Graphic illustrating key outcomes of the Oregon Mid-Coast Water Action Plan and the interconnectedness of people, water infrastructure, and natural systems..... 13

Figure 5. Key values and perspectives of Mid-Coast stakeholders in 2018 survey..... 15

Figure 6. A snapshot of the environment, natural resources, and economy of Oregon's Mid-Coast. 20

Figure 7. Total estimated average annual natural streamflow volume (in acre-feet) of surface water in streams and rivers in the Mid-Coast based on a 1958-1987 period of record. Note that these volumes do not reflect diversions for out-of-stream uses..... 22

Figure 8. Photograph of the Tye formation. Photo Credit: Stanford Project on Deepwater Depositional Systems (<https://spodds.stanford.edu/tyee-basin-oregon>) 23

Figure 9. Monthly diverted water used by municipal community water systems in the Mid-Coast. .. 42

Figure 10. Monthly diverted water used by non-municipal community water systems in the Mid-Coast. 44

Figure 11. Projected climate change impacts to important parameters in the Mid-Coast region..... 53
